

# Blooming Brittle Flower Pot Instructions

1. First thing you'll want to do is paint the colors of Brittle onto the round flower pot. Don't forget to paint on her smile!
2. Next, cut out the goggles and eyes from the felt. Wrap it around the flower pot and hot glue it on! (Templates in the descriptions below the video)
3. Taking the grey foam paper, roll it together and glue onto the pot, following the template instructions. Don't forget the rings around her nose!
4. Make sure to cut out her feet and glue them on as well!
5. Once you've added your flowers, cut out Brittle's wings from the old plastic tupperware and stick them into the soil! Then you're done!
