

1. First step is to either make your outer box with poster board or take your small cardboard box and cut out the back.
 - a. Make sure you cut out both sides so light can shine through!
2. Next thing is to cut out the Gordon design by tracing it onto colored paper to cut out, or print out the design in color and cut it out.
3. Next you want to start to glue or tape the cutout paper into the box. Make sure to put them in the correct order using the design linked in the description below.
 - a. In between each layer, take a little bit of scrap paper or rolled up tape to pad between the layers of colored art. This will help better give the shadow effect in the end.
4. The last step is to either mount it into a windowsill or on the wall like a normal piece of art!
