

Gift Box Bob Instructions

List of supplies

- Gift box, with lid
 - Acrylic paints (red and black)
 - Craft wire
 - Felt (white, black, olive green)
 - Wide ribbon (green)
 - Scissors and hot glue
 - Wirecutters
1. First thing you'll want to do is to paint the gift box red to match Gift Box Bob's festive color. If you managed to find a red gift box, that's even better!
 2. While the paint is drying, cut out the pieces of craft wire that you'll use to shape into Bob's six legs and the dome shape of Bob's face. (*Exact craft wire lengths can be found in the template PDF*)
 3. Once you have the legs and face shaped, it's time to hot-glue pieces of your black and green felt on to the wire structure. Cut out the individual felt pieces and glue the black felt to the legs and the green felt to the face. And don't forget to glue on his eyes, eyebrows and teeth! Be extra careful here, your hot glue gun can heat up the craft wire while you're using it.
 4. Now that your red paint is dry, go ahead and paint on Bob's signature black spots.
 5. Once these spots have dried, it's time for assembly! Take your wide green ribbon and hot-glue it onto the sides of the box. Then glue on a longer piece for the bow on top.
 6. Lastly, go ahead and hot-glue the legs and face directly to the box. And you're done!
